

9th International Conference on Gas Hydrates

June 25 - 30, 2017 • Denver, Colorado USA

June 29, 2017

Dr. Ponnivalavan Babu
Department of Chemical and Biomolecular Engineering
National University of Singapore
4 Engineering Drive 4
Block E5 02-23, Singapore 117586

Dear Dr. Babu

Congratulations!

The Ninth International Conference on Gas Hydrates is delighted to announce your thesis is the best in the field of hydrate fundamentals over the last three years.

This certificate is presented at the June 29, 2017 banquet of The Ninth International Conference on Gas Hydrates, with the citation:

Dr. Ponnivalavan Babu is the winner of outstanding PhD thesis for the area “gas hydrate fundamentals”. His thesis entitled “Hydrate based gas separation technology for pre-combustion capture of CO₂” presents a body of work targeting methods to enhance the kinetics of the hydrate technology and to improve the separation efficiency. His thesis work has resulted in seven first author publications in reputed engineering journals.

This award marks your outstanding achievement among your peers in the area of hydrates. We look forward to your future achievements in the hydrate field, as you fulfill the promise indicated by this award.

Congratulations again on this remarkable achievement.

All the best for a bright future,

Carolyn A. Koh
Chair

Timothy S. Collett
Co-chair

E. Dendy Sloan
Co-Chair
